## NEUTRAL ZONE BETWEEN GERMANY AND POLAND IS PLAN OF ALLIED MISSION

Formal Guarantees For Landing Polish Forces at Danzig Are Asked of Germany

RECIPROCITY IS ASKED

Allies Undertake to be Responsible For Good Behavior of Population

(By Associated Press) Paris, March 7.—A dispatch from Posen dated Wednesday tells of the meeting of allied and German missions at the village of Kreutz where negotiations for a new armistice between Germany and Poland are being carried on.

After the German delegates had declared their government retained full authority over the German troops along the Polish front, the armistice terms bearing on the Polish boundary were examined.

A line of demarcation will be fixed by a sub-committee which will be given power to maintain a neutral zone between German and Polish forces there.

The allied commission demanded formal guarantees for the landing of Polish troops at Danzig and their passage as far as the Polish frontier. The German delegates telegraphed the details to Berlin. The liberation of hostages and protection of Germans in Posen and Poles in Germany on a reciprocal basis was taken up. The Germans declared they were ready to continue the deliberations at Posen and the allied delegates assented, undertaking to answer for the good behavior of the population.

The allies, the message said, demanded all the remaining German merchantmen be handed over unconditionally without being willing to undertake obligation of supplying Germany with food stuff.

The German delegates received instructions that the question of shipping, finance and food supply must be considered as a whole.

The German message says: "The question of handling over the mercantile fleet can only arise if adequate food supplies, say 2,500,000 tons of foodstuffs, are assured Germany. The Entente would not agree to this. As the instructions of both sides did not go beyond this a French delegate proposed negotiations be broken off, whereupon the delegates left Spa."

Says Peasantry Has 12,000,000 Rifles If They Wanted to Use Them

Says if Russians Want Bolshevism They Should Have It

(By Associated Press) Washington, March 7.—Intervention in Russia was condemned by Raymond Robins, former head of the American Red Cross mission in that country, testifying today before the Senate Committee, as unfair to the Russians and unwise from the standpoint of the United States and allies. Mr. Robins said American soldiers and munitions should not be used to crush a revolution which he declared represented the wishes of the Russian people.

He declared it was his opinion that intervention would solidify Russian factions in support of the Bolshevik government, strengthen Bolshevik tendencies in Great Britain and France and materially assist laying groundwork for spread of radical doctrines in this country.

Recognition of the Bolshevik government of Russia was advised against, but the witness repeated that if the Russians wanted Bolshevism they should have it.

He denied statements of previous witnesses that Russian peasants had no arms and were unable to overthrow Bolshevik leaders. He said there were 12,000,000 rifles available in Russia.

**CREAMER BLOCK ON COURT STREET TO BE REMODELED**

Extensive Changes Will be Started in Near Future And Will Complete Beauty of "Bankers Row."

Plans are now under way for extensive remodeling of the Creamer Block, on Court street, located between the new P. & D. Bank building and the new bank building to be erected by The Washington Savings Bank, and when completed it is expected the structure will be in keeping with the other big improvements completed or under way in the immediate locality.

Architects are now working on plans for a new front, either brick or stone, and the complete remodeling of the second story of the structure so that two suites of large offices will be available on the second floor instead of only one as at present, and the building will be about the same height as The Washington Savings Bank building when completed.

The Creamer block fronts on Court street about 45 feet and the first floors are occupied by The H. T. Wilkin & Co. Clothing Store and the Gregg Shoe Store. These two rooms, which were remodeled and furnished with attractive vestibule entrances a few years ago, will not be disturbed, the remodeling being confined exclusively to the second floor and the front wall, it is understood.

It is expected that when the new Savings Bank building is completed and the changes made in the Creamer building that the row of buildings will present a most attractive appearance, and be quite a contrast to the unsightly structures formerly occupying the square.

**HERMAN MORRIS DIES IN SOUTH**

Word of the sudden death of Mr. Herman Morris, son of Mr. W. W. Morris, of Bloomingburg, and brother of Mr. Martin G. Morris of this city, at Asheville, N. C., reached this city over the wires Thursday night, coming as an overwhelming shock to family and friends. For the past two months Mr. Morris had been under the care of Dr. Minor at Asheville and had seemed to be making such improvement that, with his physician's approval, he had planned to leave the sanitarium and go to housekeeping, and his sister, Miss Lora Morris, of Bloomingburg, had completed all arrangements to leave for Asheville today to make the home for him. With the hopeful outlook and no foreboding of the eternal summons at six o'clock Thursday evening brought to his family, widely scattered, an added burden of sorrow, both in its unexpectedness and the fact that he was so alone, and the deepest sympathy of the community is theirs.

Mr. Morris has been going down in health since an attack of the grippe three years ago, from which developed tuberculosis of the throat. He had spent the winters in Florida, and had seemed to find benefit in the southern climate until this year when his health failed so rapidly that his brother Martin was called to Florida two months ago and accompanied him to Asheville. Encouragement given there had led the family to hope for his recovery.

The father is still in Ocala, Florida, one brother, Prof. Sam Morris, of Morgantown, W. Va., is detained by the serious illness of his wife and one of the sisters, Miss Jessie, of Bloomingburg, had been called to his home and is now enroute back here called by a sadder summons.

Dr. Harry Morris is located at Baton Rouge, La., as Assistant State Bacteriologist, and his coming was uncertain this morning. The other surviving sisters, Misses Jessie, Lora and Mrs. Hortense Scott, reside in Bloomingburg, and brother Martin in this city.

Mr. Morris was well known throughout the county, where his family are numbered among the old residents, and his own sterling worth and many excellent qualities won for him both esteem and liking. Ambitious and full of energy, he had been territorial manager for the Interstate Vaccine Co., of Kansas City, Mo., over several states in the south for the past four years and had met with marked business success. Before that he had been extensively engaged in farming and stock raising with his brother, Martin, and continuing in this partnership, although owing to his frequent absence from home the active management developed upon his brother. The young man was so highly valued by the company he represented that his expenses in the south were born by the firm.

But thirty-five years of age, with so much in life worth while, Mr. Morris' death is deplored by a large number of friends far and near. He was a single fellow and had no lodge affiliations, although a member of the Methodist church. The body will be taken care of in Asheville by the doctor and D. O. Young and will be met in Cincinnati by Mr. Mart Morris, Dr. Rowe and Undertaker McCoy, presumably Saturday evening. Definite arrangements are not yet made.

COLUMBUS, OHIO

To the Unchurched People of Washington C. H.:

The one great determining factor in the life of every man and woman is their relationship to God.

For too long this great vital thing has been obscured by sectarianism, dogma, sensationalism, commercialism and every other ism under the sun.

The Church, Religion, God—to the unchurched man and woman these things have been vague, shadowy, unreal—associated with ancient history, dead men and forgotten dogmas.

We are facing a new day. The old things are passing away. The world will never be the same as it was before the Great War. But two things are eternal—and they are one—God and Truth. Good neighbors, square dealings, honor and truth in business and social relations, clean sportsmanship, courage—Religion, Churchmanship mean either that today or nothing.

Because we believe that religion DOES mean these things, that every man and woman is entitled to a life of happiness, joy and service, to know Almighty God as a Father and a Protector and Jesus Christ as a brother and a friend—that every man and woman should have the opportunity of finding the best things in life—to have and to hold, we announce a series of Mission Services at the Church of St. Andrew, beginning March 10th.

This is not addressed to either Saints or Sinners—but to the men and women of Washington C. H. who believe in the things of which we have spoken and who want this city to be a better place in which to live—where every man and woman can have a fair chance to make good and be happy.

The Rector and Vestry of St. Andrew's.

## Time to Slow Up

There is no mistaking the desire of the American people that the confusion of war be cleared away as rapidly as possible, that our chaotic financial affairs be righted and placed on a sound business basis, that our boys be brought home from Europe just as rapidly as it is possible to transport them and in such numbers as the terms of the armistice and conditions in Europe will permit and above all that all unnecessary expenditures of the public money be stopped.

The present administration has given abundant proof of its ability to spend money with a lavish hand. Never in the history of the world have America's gigantic war expenditures been approached. Hundreds of millions and billions and scores of billions of dollars have been raised and spent "off hand" with apparently no idea that this big American purse of ours had any limit. It didn't during the war time when action and speed and results were the important consideration.

Now we have won the war. Settling time has come. America must meet her obligations—count the cost not only of the war but, from now on, scrutinize carefully all proposals for the expenditure of money so that we may be able to finance our own business, private and public, as successfully as we financed the world during the war.

American business men are beginning to feel the strain now that peace has come. Only the most casual consideration was given to expenditures during the war, but now there is not the urgent haste for action, there is abundant opportunity to scan each proposal carefully and eliminate every plan involving an expenditure of the public funds not absolutely necessary.

There must be a different rule applied now to handling the nation's money. Our debtors among the European nations, dealt with more or less generously during the rush of war, must put their obligations, whatever they are, in definite form—we must find out now where we stand with ourselves and with the other nations.

Whether the present administration will be able to shift into reverse and run the government's finances as peace conditions demand, remains to be proven. It has been a good spender, all right, and the people approve of the war time "extravagances" because they brought the result and dollars were not so sacred as men.

Now it's different and very soon we shall see what we shall see.

## Nothing Doing

From Stockholm comes the announcement that the Russian Soviet is hoping to arrange for a large loan in the United States and that attractive mining, railroad and timber concessions will be offered as an inducement to our financiers to accept the application and furnish the cash.

All the nations have refused Russian exchange and the Bolshevik leaders are in straights for the finances to carry forward their reign of terror.

It seems inconceivable that any American financier would consider seriously the application of a bunch of outlaws who have seized upon the governmental machinery of a great nation, forced it to accede to a dishonorable peace with Germany and brought ruin, desolation, famine and death to millions.

The promise of gain offered will be an alluring one because the vastness of Russia's wealth is scarcely capable of intelligent estimate, it is so enormous, and the adventurers are prepared to offer it all to gain the needed millions to carry forward their schemes and to line their own pockets.

## Rich America

It is needless to state that all records for appropriations of money were smashed and left behind as small masses, unrecognizable as records when compared to the enormous total of appropriations made by the congress which ceased Tuesday noon to exist.

While the world is staggered by the gigantic reparation bill which the allied and associated nations will demand of Germany—one hundred and fifteen billion dollars as the sum total, not what the guilty nation should pay, but all it is deemed possible for it to pay—we Americans read in the news reports of the same day that the session of congress just closed appropriated sixty billion dollars. While Germany is burdened for half a century to come to meet her obligations one session of the American congress appropriates one half of the total sum demanded of Germany.

It does seem that the time has come for even rich America to begin to slow up on the appropriations and, since we, apparently, need not worry about where these enormous sums of money come from, give more attention to where they are going.

## POEM FOR TODAY

### ONLY HORSES

(These fine line from Captain Gal-trey's book on "The Horse and the War" every lover of the horse will keenly appreciate.)

Every head across the bar.  
Every blaze and snip and star.  
Every nervous, twitching ear.  
Every soft eye filled with fear.  
Seeks a friend and seems to say,  
"Whither now and where away?"  
Seeks a friend and seems to ask,  
"Where the goal and what the task?"

Wave the green flag! let them go—  
Only horses. Yes, I know;  
But my heart goes down the line  
With them, and their grief is mine—

There goes timid, child-like trust  
To the burden and the dust!  
High-born courage, princely grace,  
To the peril it must face!  
There goes stoutness, strength and  
speed,  
To be spent none shall heed;  
And great hearts to face their fate.  
In the clash of human hate.

Wave the flag and let them go!—  
Hats off to that wistful row  
Of lean heads of brown and bay,  
Black and chestnut, roan and gray!  
Here's good luck in lands afar—  
Snow-white streaked and blaze and  
star!  
May you find in those far lands,  
Kindly hearts and horsemen's hands.

## LET'S TALK IT OVER—BY HAL COFFMAN

### WHAT'S YOUR HANDICAP

What's your handicap in life? Is it physical or mental? They never handicap the dubs, in a race they give them a handicap. If you are handicapped it is up to you to throw it off and win. Is it lack of erasing, study, wasting your hours, love of gambling, desire to be always on the go, avoidance of responsibility, or what? Every really great man that the world has produced has been handicapped in some way. And overcame it. If you're handicapped and realize it and throw it off, you're a thoroughbred, go in and win.

## PATRIOTISM IS NEARLY UNKNOWN AMONG RUSSIANS

Interesting Discussion by Prominent Russ Leaders Shows Situation Confronting Russian Peoples

Archangel, December 26. Via London, February 6.—(Correspondence of The Associated Press.)—An interesting in sight into the views of a Russian leader on the troubles and failings of his people is given by President Nicholas B. Tchoukovsky of the Northern Region in an article written for The American Sentinel, the newspaper for American soldiers, published at Archangel.

Writing for the members of the American Expeditionary Force, President Tchoukovsky said: "It is true that Russian culture is very recent and lacks the brilliancy and accomplishment that are so characteristic of the large American cities. It is particularly noticeable that what we borrow from abroad does not easily adjust itself to our foundations. But as if afraid to be left behind by our more progressive neighbors, we have acquired this foreign superstructure without having first properly prepared the foundation."

"Thus we had brilliant electric lighting in our capitals long ago, whereas the peasants in the villages have only recently ceased using wood splinters to light their huts. Our universities and scientists are well known throughout the world, while scarcely thirty percent of our country folk are able to read and write."

"In our social and political life, one observes the same peculiarity. For more than fifty years we lived under a rule of veritable slavery to bureaucrats, imperial gendarmes and police, being deprived of the most elementary rights of citizenship. But at the same time we used to have all shades of political and socialist doctrine, whose exponents sought an immediate answer to the social problems and the adoption of ideal methods of distributing the wealth of the country."

"In a word, we have been very anxious to absorb the latest ideas of western civilization without being at all sure that there was room for them in our own life. We have always been more concerned with the affairs of the wide world than with the crying needs and faults of our own nation. We have actually learned to be indifferent to our own national interests and ashamed to be patriotic."

"Unfortunately, some of our splendid natural gifts, our achievements in art, music and literature have given some of us the conceit that we have been called upon to teach other nations how to solve their most difficult and complicated problems. Thus, it is said that Lenin, accord-

ing to his own statement undertook so daringly his dangerous experiment with our Russian affairs not so much for our own sake as to teach a lesson to all mankind. Leaving aside his other motives, it would be difficult to find a better personification of vanity and conceit."

## News of Interest to Women

Miss Jean Fitzgerald, a former Washington girl but now residing in Columbus, has the honor of being chosen one of the nineteen girls of the "representative women" of Ohio State University, whose pictures will appear in the year book of the University "The Makio."

The Ohio State Journal says: "In former years it was the most popular girls who were chosen."

"This time it is not only the most popular, but as well the most useful young women who obtained places of honor on the pages of 'The Makio.' The selection was made by The Makio board, a committee from the faculty and the popular vote of the university students."

These are the girls who have kept up the standards of the university when the young men were away at war. They have been leaders in war work, member of the woman's council, of the Y. W. C. A. board, presidents of the various women's organizations and editors and business managers of The Lantern, the university newspaper.

A splendid likeness of Miss Fitzgerald appeared with the pictures of these "Most Popular and Useful Ohio State Coeds" on the front page of Thursday's Ohio State Journal.

Miss Fitzgerald will graduate from the University in June.

The Young Women's Foreign Missionary Society of Grace Church met Thursday afternoon with Mrs.

Glenn Woodmansee. Mrs. Walter Jones, Mrs. Mart Morris and Miss Helen Ginn were assisting hostesses.

Mrs. Herbert Chapman the President conducted the business session, and Miss Helen Glascock lead the devotionals, two of the missionary hymns being used effectively.

Mrs. Jess Feagans read one of Paul Lawrence Dunbar's poems "Just Somebody Else". A violin duet was well played by Roma Brownell and Gwendolyn Wolfe, Miss Kessler accompanying them. Miss Fern Sunkle read a clipping, "The Prayer of Faith."

A New York woman has won distinction as the "Champion bed maker," a title to which Mrs. Malcolm L. MacLeod, a Y. M. C. A. worker can lay claim if such championship exists for in one day she made up 100 beds in the Cosmo Hotel, when the Y. M. C. Mrs. MacLeod is a granddaughter of George M. Bertram, who in 1854 led a party of settlers from New York to the shores of Lake Minnetonka. When Mrs. MacLeod arrived here the leave work and hospitality work were the big items on the "Y" programme. ## SOLONS DIVIDE ON PROPOSAL OF SPEAKER KIMBALL

(By Associated Press)  
Columbus, March 7.—Members of the legislature were divided today in their opinions on the proposal of Republican speaker Kimball, of the house, to abandon the plan of the joint taxation committee for providing temporary relief for city and local taxing districts and resubmitting a classification amendment immediately.

A number of the republican members did not agree with Kimball on his plan for resubmitting a classification amendment at a special election.

Rural members are opposing a special election in May on the ground that farmers will not be able to vote at this time.

## CUBAN STRIKE IS SPREADING

(By Associated Press)  
Washington, March 7.—The general strike in Cuba has spread, according to advices today, until transportation in fully half of the country is tied up. Practically all industries are at a standstill.

**TO TRACE EPIDEMIC EFFECTS**  
Cleveland, O., March 7.—A survey to get an exact census of all influenza-pneumonia patients who have recovered and who have developed symptoms of tuberculosis is to be made here next week by the Tuberculosis Section of the Cleveland Health Department. It was decided at a conference between tuberculosis workers and City Health Commissioner Rockwood.

Another disadvantage the James brothers labored under was that they didn't think of pretending to be working in the interest of the proletariat.

## ANSELL GIVEN OLD TIME RANK IN U. S. ARMY

Gen. Kreger is Called from France to Become Judge Advocate General

Washington, March 7.—(By Associated Press)—Brigadier General Samuel T. Ansell, former acting judge advocate general, and one of the central figures in the controversy with regard to the administration of military justice, will be returned to his prewar rank in the army March 10, along with 11 other brigadiers.

At the same time this announcement was made last night, Secretary Baker disclosed that Brigadier General Edward A. Kreger had been directed to return from France to act as judge advocate general during the absence in Cuba of Major General Enoch H. Crowder. General Ansell, with his regular rank of lieutenant-colonel, will continue, by direction of General Crowder, as chairman of the board reviewing court-martial proceedings with a view to recommending commutation of excessive sentences.

In the statement announcing the return of General Kreger from France, Secretary Baker said the discharging of the 12 brigadiers from their temporary rank was in the ordinary routine of demobilizing the war army and that the fact that General Ansell was among the number had "no relation to controversy which has existed in regard to the administration of military justice and clemency."

Reports that General Ansell, who recently testified before congressional committees against excessive court-martial sentences was to be discharged from the war-time rank have been current several days and have been subject to two letters from Representative Gould of New York to Secretary Baker.

Replying to the first of the letters, Mr. Baker said no officer of the army had been disciplined, or even questioned, regarding testimony before committees of Congress.

General Kreger holds the rank of lieutenant colonel in the regular army having been advanced to that rank on May 15, 1917, the same day on which General Ansell was given similar grade. Both officers later were given temporary commissions as brigadier generals. General Kreger was sent to France recently to review court-martial cases in the American Expeditionary Forces, with a view to expediting such reviews and the granting of such clemency as might be found warranted.

## MAKING CHANGES AT JEFF. AUTO CO.

The work of remodeling the additional block recently purchased by The Jeffersonville Auto Company, is now well under way, and within a short time the new building will be consolidated with the present plant of the firm and the garage be greatly modernized and enlarged.

The bakery room adjoining the office of the company, which fronts on the main street of Jeffersonville, will be remodeled and equipped with a large line of electrical goods. A large doorway will be cut through the walls connecting the room with the main office.

The room south of the bakery room is to be converted into a comfortable waiting and rest room for women.

Back of the room to be used for electrical goods will be storage rooms for Ford parts, while two additional rooms will be used for storage purposes. Later on a steam heating plant will be installed in the block. Outdoor lighting will be a feature of the newly remodeled plant.

The firm now occupies buildings fronting 100 feet on Main street and extending back nearly to the alley 165 feet. The plant will be a remarkably large one and exceptionally well equipped for a town the size of Jeffersonville.

### PEASANTS FIGHT BULGARS.

Saloniki, March 7. — Fighting between peasants and Bulgarian forces in Western Thrace and Strumitza as a result of efforts of the Bulgars to requisition food and household articles has been reported. It is said the Bulgarians are attempting to strip the country before being forced to retire.

### NEWSPAPER CHANGES OWNERS.

Columbus, Ohio, March 7.—According to a report received here the Zanesville Signal, the afternoon Democratic newspaper of Muskingum County, has changed hands at a price of \$195,000. Charles Gibson will be manager. He succeeds in that position James R. Alexander, former owner and now Postmaster.

## COXEY TO LEAD ARMY OF WETS

New York, March 7. — "General" Jacob Coxey declared here last night that he proposes to lead another "army" to Washington, as a protest against national prohibition. He has decided, however, that he will not go on foot, but will travel in a touring car and motor transportation will be provided, he said for all his cohorts.

"General" Coxey, who is at the Waldorf-Astoria, said he had discussed the project with many business men in this and other cities and that most of them have volunteered to enlist in his army.

## GERMAN FIRMS IN JAPAN GO

Tokio, March 7.—(By Associated Press)—The closing of the German firms in Japan is significant of the change of situation in this country. One of the largest German business houses in Yokohama before the war, dealing in machinery, drugs, and other imports, announces that their buildings and lands are for sale.

## CZECHS CLASH WITH GERMANS

Vienna, (Wednesday), March 7.—There have been sanguinary engagements between Czech soldiers and citizens in numerous towns in German Bohemia, according to reports received here.

The trouble started when the Germans attempted to hold elections for the Austrian national assembly in Vienna, which the Czech government prohibited, because Bohemia is Czech territory. The Germans organized manifestations against Czech rule and the Czechs used rifles and bayonets in suppressing the demonstrations.

Three persons are reported to have been killed at Karlsbad and 10 at Sternberg. A number of others are reported to have been killed or wounded in clashes at Reichenberg, Aussig, Bruex, Eger and Mies.

## MANY EXHIBITS WILL BE MADE

Mexico City, February 10.—(Correspondence of the Associated Press.)—The Department of Industry, Commerce and Labor has ordered the establishment of twenty-three commercial exhibits in North, South and Central America and Europe and has appointed four commercial agents who will be stationed in St. Louis, New Orleans and San Francisco and Barcelona, Spain. The exhibits will be housed as adjuncts of the Mexican consulates in San Francisco, New Orleans, Tampa, New York, Los Angeles, Philadelphia and in Central and South America and European cities, including Havana and Lima.

"Where are my reading glasses?"

Mischievous daughter has picked Daddy's pocket and watches him gleefully as he searches in vain for his reading glasses.

If Daddy wore KRYPTOK Glasses he would be freed from the "off-and-on" nuisance of the two-pairs-of-glasses bother, because KRYPTOKS (pronounced Crip-tokks) would give him, in one pair of glasses, the necessary correction for both reading and distance.

And KRYPTOKS give him this convenience without that draw-back of other bifocals—the conspicuous age-revealing seam or hump.

# COMPARING THE FORDSON TRACTOR

Compare the number of Fordson Tractors now in use in Fayette County with any other make of Tractor.

Then compare the number of Fordsons with all other makes in the County combined.

Then remember that the *first* Fordson Tractor was delivered in Fayette County June 25th, 1918—only 8 months ago.

Also talk to the owners of other makes of Tractors and see how many of them are trying to dispose of their Tractors so that they can buy Fordsons.

And, finally, go out and talk with any Fordson Tractor owner and watch his Fordson doing regular every-day farm work.

Let these facts aid you in deciding *which* Tractor it will pay you to buy.

## HER FLUTTERING HEART A CAUSE OF MUCH DISTRESS

But Mary Henry Soon Said Good-bye to This and Other Ills, Thanks to Nerv-Worth

Here is the story of that happy farewell, as told a short time ago to Springfield's Nerv-Worth druggists:

The Troupe Drug Co.—For two years I have been very nervous and my system all rundown. Felt weak and tired all the time. Some nights I would not sleep at all. Stomach and digestion in bad condition. My heart would flutter and I was short of breath. Badly bloated. Pains in my side.

I purchased one bottle of Nerv-Worth and took it as directed and can say now that I never felt better in my life. All the troubles mentioned have disappeared. Sleep soundly all night and have a good appetite and have gained back my strength. It certainly is a fine medicine.

## BETTER THAN CALOMEL

Thousands Have Discovered Dr. Edwards' Olive Tablets are a Harmless Substitute.

Dr. Edwards' Olive Tablets—the substitute for calomel—are a mild but sure laxative, and their effect on the liver is almost instantaneous. They are the result of Dr. Edwards' determination not to treat liver and bowel complaints with calomel. His efforts to banish it brought out these little olive-colored tablets.

These pleasant little tablets do the good that calomel does, but have no bad after effects. They do not injure the teeth, as strong liquids or calomel. They take hold of the trouble and quickly correct it. Why cure the liver at the expense of the teeth? Calomel sometimes plays havoc with the gums. So do strong liquids. It is best not to take calomel, but to let Dr. Edwards' Olive Tablets take its place.

Most headaches, "dullness" and that lazy feeling come from constipation and a disordered liver. Take Dr. Edwards' Olive Tablets when you feel "lousy" and "heavy." Note how they "clear" the brain and how they "perk up" the spirits. 10c and 25c a box. All druggists.

## OHIO'S BUDGET TAKES BIG JUMP FOR TWO YEARS

Increase of \$1,000,000 for 1920 and 1921 Asked by Governor

Columbus, Ohio, March 7.—(By Associated Press)—Governor Cox's budget recommendations for all purposes for the two years, beginning July 1 next, and ending June 30, 1921, are \$48,985,470, it became known yesterday.

This total sets a new high record for the state. The advance is due largely to increased cost of commodities, equipment and service.

Total expenditures for the two years ended June 30 last were \$40,729,340.

The budget is divided into general purpose and special purpose sections the latter referring to state highways, automobile and fish and game departments, whose funds are separate from the general purpose funds of the state treasury.

General purpose recommendations for the next biennium total \$37,128,725.57, against estimated revenue of \$34,975,000, leaving an estimate deficit of \$2,153,725.57.

Adding to this an estimated deficit of \$1,425,258.42 of June 30 next, a total deficit of \$3,578,983.99, is foreseen.

These deficits are in the general purpose fund.

In the special purpose funds, the estimated sum available for the next two years is \$19,552,960.02, while appropriation recommendations are only \$12,055,944.80.

This means that while there will be a deficit in the general purpose fund, there will be a larger balance in the special purpose fund to offset it, and therefore a net balance in the treasury.

The sum of \$361,712 is urged for the Ohio National Guard, which the governor expects to re-establish.

Three hundred and fifty thousand is put down for construction of the new penitentiary at London, besides \$100,000 for drainage, roads and a railroad spur.

Other improvements recommended are: Tubercular cottage at the Athens State Hospital, \$20,000; four cottages at the Gallipolis Hospital for epileptics, \$88,000; 10 cottages at the Institution for the Feeble Minded, \$220,000; tubercular cottage at the Massillon State Hospital, \$20,000; additions to the Mt. Vernon Tubercular Sanatorium, \$80,000.

The total for additions and betterments for the boards of administration is \$1,173,100.

The sum of \$100,000 is recommended for an addition to the chemistry building, Ohio State University.

Full requests of the state highway department were recommended by the budget commissioner, namely, \$1,210,000 for main market roads, and \$3,550,000 for inter-county highways.

## AUTO THIEVES' VOCATION IN OHIO DOOMED

The Automobile Registering Company, a Corporation recently organized under the laws of the State of Ohio, with main offices in Cleveland, is now in position to make life miserable, and successful theft impossible for the auto thief.

We have special representatives all over the State, whose training and qualifications eminently fit them for the work of running down auto thieves.

This corporation is in a position to offer the Auto Owners protection for the nominal sum of \$2 per year. Upon discovery of the theft, immediately notify your local Police and Sheriff and also our main office, Superior Building, Cleveland, O., and we will send the alarm to all our Operatives over the State, your Chief of Police or Sheriff will call at once the counties adjoining your county at our expense.

Give as far as possible make and model of car, number of chassis, engine, license, color of body, wheels and top, and any special marks. Give your correct post office address.

ALL DUES PAYABLE IN ADVANCE AT OUR BRANCH OFFICE.

For the counties of Fayette, Ross, Highland, Pickaway, Greene, Madison, Clark and Clinton, mail application and check to

HENRY W. JONES,

District Mgr. Washington C. H., Ohio. N. B.—Become a member today; don't wait until your machine is stolen. This service is very cheap to you. Ask anyone who has had one stolen. YOUR SHERIFF AND CHIEF OF POLICE will tell you they are constantly receiving complaints of stolen cars. While Sheriff, I had four years of this experience. Notice your daily papers. Thousands stolen in Ohio every year.

Officers in trying to do their duty have always been handicapped from the fact that if they halted a car because of the suspicious action of the driver, then looked at the engine number, there would be no place to call and find out the real owner of the car. THE THIEVES ALL KNOW THIS FACT and plan accordingly, first throwing away your license tag, then putting on some other license, giving what appears to be a good plausible story (this is always their strong suit) and are allowed to go on their way. DON'T BLAME YOUR OFFICERS. They always do all they can to help you recover your car. You can help them do their duty for you by becoming a member of the Automobile Registering Co. It affords you more protection and gives the officers a system to run down thieves. —Adv.

## VIEWS OF OTHERS

Mr. Editor:—

All your readers understand that your paper is non-partisan; some might take issue with you, however, on the definition of the word. To criticize both parties, equally and indiscriminately, is not to be "non-partisan," as I understand the meaning of the word.

In your editorial of yesterday, entitled "The Senate's Mistake," you say:

"President Wilson is by no means free from blame in having precipitated the personal clash which has not only brought shame to the Senate of the nation, but which has seriously menaced our financial and industrial affairs as well and placed in jeopardy the fruits of the glorious victory won by our army and navy. His persistent and inexcusable policy of aloofness, his determination to ignore wholly, the Senate (without the approval of which no peace treaty can be executed) in all peace negotiations might have been expected to produce the breach which now exists. There was, so far as the public has been informed, no reason for President Wilson's PRONOUNCED INSULT OF THE SENATE, etc."

Now, I have followed the public acts of President Wilson since the signing of the armistice with some care, and I am, after reading the foregoing, inclined to call for specifications. Tell me in just what way President Wilson is to blame, and how he precipitated the personal clash referred to. Tell me from what public acts of his you deduce that he has adopted an "inexcusable policy of aloofness," and "his determination to ignore wholly, the Senate."

Tell me what act, or failure to act, on his part, constituted a "pronounced insult of the Senate."

When you have done this you will no doubt be prepared to tell your readers what President, before President Wilson, while engaged in negotiating a treaty of peace, or any other kind of a treaty, went to the Senate and asked its advice as to what kind of a treaty he should make before the treaty was made and laid before the Senate for ratification.

What, in the light of precedent, ought President Wilson to have done to avoid giving "pronounced insult" to the Senate? What did he fail to do THAT ANY ONE OF HIS PREDECESSORS EVER DID, when a peace treaty was being negotiated?

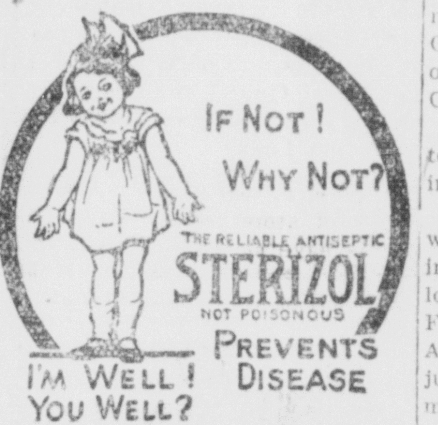

I am hungry for information.

Yours,

JOSEPH HIDEY.

## HEARS FROM MOTHER AND SISTER THE FIRST TIME IN FOUR YEARS

Through a letter just received from relatives in Paris, Mrs. Jules Marlier, of South Fayette street, who, with Marlier recently moved to this city from Lancaster and opened a restaurant, has had the first word from her mother and sister, former residents of Chatelet for a period of four years, or since the German occupation of Chatelet.

Mrs. Marlier learned that her sister is in Paris and her mother back in Chatelet.

In addition to being cut off from word from her mother and sister during the four long years, Mrs. Marlier lost a brother who, a member of the French army, was killed in action August 29, 1918. Another brother has just returned to France from a German prison camp after long hardships, and is now located at Chatelet.

"Since I was a child, I have suffered with stomach trouble and gastric attacks. Doctors could only give me temporary relief. Alady I sewed for told me of having been cured of similar trouble by taking Mayr's Wonderful Remedy. The first dose proved to me that it would cure me and it has. I am glad to recommend it to other sufferers." ## HAS BROKEN NECK IS STILL ALIVE

Camp Sherman, Chillicothe, Ohio, March 7.—(By Associated Press)—Lieutenant John A. Logan, U. S. A., of Cleveland, is one of the few men who have sustained broken necks and is still alive to tell the story of how it happened. The lieutenant is in the base hospital here, and attending surgeon say that he will enjoy life for many years to come, despite the broken neck.

Lieutenant Logan, an aviator, sustained the injury while on duty in France. He went up one day over the Vosges sector, and engaged several German planes. A piece of shell from one of the enemy's guns put his motor out of commission, and the officer was forced to volplane. He lost control, and had the preference of diving on a house or landing on the ground. He chose the latter, and when he was dragged from the wrecked machine, it was found that he had received only a few slight scratches. He rejoined his squadron, being able to walk, but that night his right side became paralyzed. Surgeons made an examination, and it was found that Logan's neck was broken. This was the fourth accident in which Lieutenant Logan figures, for, previous to going into active service, he was injured in three training accidents.

The morning themes will be drawn from the Parables of our Lord, relating to country life.

The evening sermons will be taken from scenes of patriarchal life and will be intended to develop pioneer spirit.

The purpose of the series is to give the farmer a higher vision of his life and work. 5612

If all the tired, overworked, run-down women in this community could realize how our delicious Vinol, which contains Beef and Cod Liver Peptones, Iron and Manganese Peptonates and Glycero-phosphates supplies the vital elements necessary to enrich the blood and create working strength, we wouldn't be able to supply the demand.

Burdett, N. Y. "I keep house for my family of three, and raise chickens. I had a nervous breakdown, so I was unable to work. The doctor did not seem to help me, and a cousin asked me to try Vinol. It built me up—I now have a good appetite and am well and strong."—Mrs. Loyal Palmer.
